A Seminar by Kavya CAD Centre Design Solution

A session on 'Functions of CAD software in Civil Works' was organised in the campus for the students of Civil Engineering department by Mr Rohit Sharma from Kavya CAD Centre Solution, Faridabad along with his team mate on Feb 28, 2024. Around 50 students attended the session. The orator explained to the students how to create, analyse, and optimize infrastructure planning. He also gave insights into its usage in project planning, determining costs, resourcing, and scheduling. He focussed on the fact that learning such applications would really help the students in making informed decisions and deliver high-quality infrastructure solutions at their workplaces.
