Mission LIFESTYLE

Adhering to the instructions given by Ministry of Environment dated May 23, 2023, Forest and Climate Change, RJGP Neemka organized a Seminar for the students to make them aware about the importance of recycling, reducing and reusing different products. The coordinators had shown them the video on May 30, 2023 displaying how to save our planet. The students imbibed the fact that ultimately man is responsible for polluting the environment and they assured that they will not use plastic in their daily routine.
