

Campus Placement

It's a great honor to share that New Allen Berry Works, Faridabad, a leading manufacturer of automotive gears and shafts for engine and transmission applications organized an off-campus placement drive for the students of Mechanical, Electrical & Electronics & Comm. department. Around 40 students participated in the Written Test and Personal Interview. Out of which, 3 students namely Rishabh, Shyamjeet and Praveen from Mechanical Department got selected and were given joining offers. The students were really excited to work in a professional environment and thanked Mr Umesh Dixit (Principal, RJGP) and Mr Manoj Kumar Meena (Diploma Coordinator, RJGP) for providing them such a great opportunity for building their career path.
